Summary

I am a D3 Informatics Engineering student with more than 2 years of experience in website and journal freelancing. I have a deep desire to always explore new things and also always interested in adapting to the latest technology such as the use of AI in supporting my Freelancer. My journey in the world of technology began when I studied at Polines Informatics Engineering Study Program. Since then, I continue to hone my skills and knowledge in the field of Leadership, Public Speaking and concepts to create mobile-based applications and websites.

Education

2023 - 2026 | State Polytechnic of Semarang | Diploma in Informatics Engineering

Relevant coursework in Web Development Design as well as Mobile Applications

IPK: 3.88

Internship Experience

Auguts 2025 - January 2026 | CV.Agra Prima Indonesia | Full Stack Developer

- During my internship as a Full-Stack Developer, I developed and maintained web applications from start to finish, from system design and feature implementation to performance optimization. I also built RESTful APIs, managed databases and data structures, and performed debugging, testing, and optimization to ensure the system remained stable and responsive. Additionally, I managed version control using Git and maintained code quality through documentation and best development practices.

Academic Project

Project Based Learning for the creation of eRecruitment Website for MIKA GROUP

- Working on Frontend in its applicant view
- Working on the Backend for all Frontends
- Creating Database and managing github repository
- Controlling all applicant side

Project Based Learning for Univgo Mobile App development

- Holds the login and register features for users along with the backend
- Perform Database creation
- Control the github repository

Creating a Website Mitra Jaya Print for CV. Agra Prima Indonesia

- This website is used to view the product catalog, place printing orders, specify designs or requirements, upload files, make payments, and track order status online.

Creating a Flutter-based mobile application for waste classifier app

- This app is designed to support sustainable waste management by helping users identify recyclable materials through image recognition.

Organizational Experience

Juni 2024 - Juni 2025 | Leader of Rohis Polines | UKM Jazirah

- is fully responsible for the overall operation of the organization, from planning and implementation to the evaluation of work programs. He ensures that every activity aligns with the organization's vision and mission, coordinates all executive members, and makes strategic decisions to achieve the established goals.
- Additionally, he is responsible for mentoring members, maintaining good relations with both internal and external campus stakeholders, and ensuring proper administrative procedures and organizational transparency. He also plays a crucial role in advancing campus outreach and fostering an Islamic, conducive, and sustainable environment.
